Company Overview

Acuity Risk Consultants is a third-party risk and insurance administrator that provides time savings and cost avoidance. We do this by owning and managing the transmission of data related to insurance or insurance related functions on behalf of the business.

By allowing Acuity to follow up on certain tasks, we add value to your risk and insurance program. We are not insurance brokers, rather your internal risk managers who work for and with you to achieve your visions of growth.

Mission

To bridge the gap between business owners and the insurance industry.

Vision

To utilize our network of **people**, our **processes**, and proprietary **technology**, to provide support to businesses and the community.

Challenges

1. Driver Risk

Hiring demands can force business owners to waste time with assessing the quality of their candidate pool.

4. Claims Management

Lack of follow-up and streamlined processes result in time lost and incurred costs.

2. Stakeholder Management

A lot of time and energy goes into managing the flow of information among stakeholders.

5. Risk Management

Without proper risk management, the culture becomes reactive, rather than proactive.

3. Risk Administration

The risk administrative functions of the business require constant communication and follow-up.

6. Insurance Advisory

Lack of more frequent conversations around insurance. Business owners must rely solely on guidance from broker.

Solutions

1. Driver Risk

Acuity runs motor vehicle reports and provides an assessment of the driver's hiring and driving risk.

4. Claims Management

Claims management is time sensitive. Acuity becomes your dedicated team, focused continuously on this.

2. Stakeholder Management

Acuity will manage the risk-related communication from the business owner's network.

5. Risk Management

Acuity identifies, assesses, and manages threats to an organization's capital and earnings.

3. Risk Administration

Acuity relieves business owners of the time-intensive risk administrative functions that we are better suited for.

6. Insurance Advisory

Acuity becomes your trusted insurance advisor and constant resource for your organization. Our focus and efforts on a day-to-day, better position you for what's ahead.

We're Here to Help.
