# Company Overview

Acuity Risk Consultants is a third-party risk and insurance administrator that provides time savings and cost avoidance. We do this by owning and managing the transmission of data related to insurance or insurance related functions on behalf of the business.

By allowing Acuity to follow up on certain tasks, we add value to your risk and insurance program. We are not insurance brokers, rather your internal risk managers who work for and with you to achieve your visions of growth.

## Mission

To bridge the gap between business owners and the insurance industry.

## Vision

To utilize our network of **people**, our **processes**, and proprietary **technology**, to provide support to businesses and the community.

# Challenges

## ***1. High-Risk Industry***

Segmented legalization and limited banking options result in higher risk a liability to the business owner.

## ***2. Limited Options***

Limited carrier participation creates exclusive markets that business owners may not be privy to.

## ***3. Broker Access***

Where you start the insurance journey can make a world of difference.

## ***4. Insurance Affordability***

The nature of the business with limited options, results in higher-pricing for insurance products.

## ***5. Insufficient Limits***

Identifying insufficient limits typically only comes to light when it is too late and as a reaction to an event.

## ***6. Navigating Growth***

As your business grows, so can your premiums. This potential increase is often only discussed at the time of renewal.

## Solutions

### ***1. High-Risk Industry***

Acuity assists with protecting your business, through risk management and insurance advisory.

### ***2. Limited Options***

Acuity's industry experience and expanded network provides a more clear path for your business.

### ***3. Broker Access***

Time can be wasted in locating the right broker to partner with. Acuity handles this, so you don't have to.

### ***4. Insurance Affordability***

Acuity provides market comparisons of best options available. We ensure your business aligns with product offerings.

### ***5. Insufficient Limits***

Acuity conducts an assessment and consults on the appropriate limits for your business.

### ***6. Navigating Growth***

Acuity tracks your growth trends and provides annualized projections which allows for fund allocation ahead of renewal.
